

Product Sheet

Fuel System Cleaner

Midas Fuel System Cleaner is a **concentrated** formula designed to clean the entire FUEL SYSTEM. This formula removes water from the fuel system by suspending water and fuel together and removing the water through the combustion process. It dissolves carbon deposits, gums, and varnishes. The Midas formula is designed to lubricate while cleaning and reduces harmful emissions.

Application / Directions

- Pour entire content of bottle into fuel tank every 3,000 miles.
- Entire content of bottle will treat up to 30 gallons.
- This formula is good for ALL diesels AND gasoline engines.

Features / Benefits

Unlike many similar type fuel cleaning products the Midas specially formulated fuel products are "petroleum based," not alcohol or kerosene based. All product is supported with 3rd party test data. Midas concentrated formula cleans the entire fuel system, lubricates providing protection so as not to dry out any working components and giving protection against rust and corrosion.

- Helps Improve Power
- Helps Remove Water
- Restores Fuel Economy
- Reduces Emissions
- Safe for vehicle, the technicians and the environment.
