

## Product Sheet

### Power Steering Conditioner

**Midas Power Steering Conditioner** is formulated to reduce friction and wear in the power-steering pump, valves and springs. It helps eliminate squeals and chatter due to "sticking" components and foaming. It conditions and protects seals against drying and shrinkage to help prevent leaks.

#### **Application / Directions**

Pour contents into power-steering reservoir. **Do not overfill.**

#### **Features / Benefits**

- Helps prevent squeals and chatter in power steering systems.
- Helps reduce pump wear and noise.
- Conditions hardened and dry seals and helps prevent internal leaks.
- Compatible with all domestic and most foreign vehicles with power-steering units.
- Ideal for new and used vehicles.
